PRESS RELEASE

Geis expands management level of the business division Road Germany

Bad Neustadt, 22 February 2024.

The internationally active Geis Group is planning the handover in the Road Germany division with foresight. Already in October 2023, Jörg Rotthowe was appointed second Managing Director. He will gradually take over responsibility from long-standing Managing Director Klaus Stäblein, who will retire at the end of 2025. The management duo will be supported by Peter Gayer and Uwe Schleh, who were appointed as members of the Executive Board at the beginning of the year.

Jörg Rotthowe has more than 30 years of experience in the freight forwarding and logistics industry. The forwarding agent and business economist has been a member of the Road Management Board at Geis since May 2021 and was previously responsible for Road International and Road Sales Germany. He previously held management positions at various logistics companies, including DHL Supply Chain in Hamburg and most recently as branch manager at Zufall Logistics Group for ten years. In addition to his expanded responsibilities at the head of the Road Germany division, Jörg Rotthowe has now also been appointed to the Executive Board of the Geis Group.

Klaus Stäblein and Jörg Rotthowe will share the tasks of the Road Germany management until 31 December 2024. After that, Jörg Rotthowe will become the sole Managing Director, while Klaus Stäblein will continue to manage special projects for the Geis Group until his retirement at the end of 2025. Klaus Stäblein has held various management positions at the Geis Group since 1988 and has very successfully managed the Road Germany division since 2006.

Global Logistics

"Jörg Rotthowe is an experienced leader and has in-depth knowledge of the markets and our company. We are delighted to have found in him the ideal successor to our long-standing Managing Director Klaus Stäblein," says Jochen Geis, Managing Partner. "Through long-term succession planning and dual leadership, we are ensuring that the transition will be seamless for our customers and our employees."

Road management team with a broader base

The Geis Group also expanded its Road Germany management team on 1 January with the addition of Peter Gayer and Uwe Schleh. Peter Gayer has worked for the Geis Group in various specialist and management roles since 1989 and has been Head of Automotive Road Germany since April 2020. He has now been appointed as a member of the Executive Board for the Automotive division.

Uwe Schleh has been at home in the haulage industry for 23 years and joined the Geis Group in August 2018 as Branch Manager Satteldorf. Most recently, he was also Head of Operations and Controlling in a corporate function. He is now assuming operational responsibility for the areas of national system transport and controlling on the management board. His successor as branch manager will be Manuel Ulbrich, his previous deputy and forwarding manager.

"By expanding the management team, we are setting the course for the Road Services business division to continue its current growth," explains Hans-Wolfgang Geis, Managing Partner, adding: "With this powerful management team, we are ideally equipped for the challenges ahead."
